

HOT SHIELD WEB CASE - A CARRY POUCH FOR FACE MASKS MODEL WC-1

The Hot Shield Web Case Carry Pouch is designed similarly to the SCBA face mask pouch on a firefighters structure coat, allowing the user quick access. The Web Case stores any Hot Shield face mask and still has enough room for a pair of goggles or other small items. Constructed of Cordura Nylon 600 denier with 2-way zippers. Two short straps with snaps (on backside) allows quick install or removal to web gear or belt. Measures approximately 9" wide at top, 11" wide at bottom and expands to over 3" thick inside. Made in USA.
